**ALL PRODUCTS
AVAILABLE IN ANY
FINISH OR COLOUR**
May require a minimum quantity ordered

Tarrison Products' EXTENSIVE product line, commitment to INVENTORY and broad range of finishes and sizes will meet your storage needs each and every time.

Tarrison's storage and handling equipment is uniquely designed to fit every storage application. The open wire truss-reinforced shelves permit light to penetrate, allow free air circulation and greater visibility of merchandise. Moisture and dust accumulation is reduced and maximum effectiveness of sprinkler system is ensured. Assembly is simple. The heavy-duty tubular posts with rolled circular grooves at 1-inch increments are clearly numbered to make assembly exceptionally easy, fast and accurate. No tools are required for assembly or adjustment. The built-in tapered shelf collar mates perfectly with the inter-locking clip. The mating rib on the Tarrison clip ensures a positive shelf position on the grooved post. A perfect fit every time!

Our shelving systems come in a variety of finishes. Choose what's best for your application and budget.

Stainless Steel

Type 304 series stainless steel. The definitive choice for any and every application.

PolySeal

Clear epoxy powder coat electrostatically applied over bright zinc-chromate electroplating. The smart choice for any dry storage and high humidity application, such as refrigeration. Tarrison's PolySeal finish gives you added protection for longer durability and corrosion resistance at the lowest cost. *15-year corrosion warranty.*

Chrome

Bright nickel-chrome electro-plating. Best choice for dry storage and display applications. A brilliant finish for the high-tech look. Use where appearance is a major factor.

Value Epoxy

Silver grey epoxy is electrostatically applied. Three-year warranty from date of manufacture. Available in any colour you like.

Tarrison Shelving has one of the highest load ratings on the market today. You asked for strong, heavy-duty shelving at an affordable price and Tarrison answered.

Static Load Capacity

Up to 48" wide: 800 lbs. per shelf
Over 48" wide: 600 lbs. per shelf
Dunnage Shelving: 1,500 lbs. per shelf
Static Load is based on even distribution.

Mobile Load Capacity

Tarrison's casters have a mobile load rating of 300 lbs. each, 1,200 lbs. per unit.

Warranty

Tarrison Products Ltd. warrants that all Tarrison products will be free from defects in material and manufacture at time of shipment. We guarantee to replace any item that is found to be defective for up to one (1) year from date of shipment provided that it has been properly used.

Tarrison Products Ltd. will repair or replace any product that does not perform as represented herein with normal usage. A Tarrison Representative will examine the installation and determine repair or return disposition. No returns may be made without prior written authorization. All returns must be made freight prepaid to Tarrison Products Ltd.

All Warranties are made for the benefit of the original owner under normal usage. There are no other warranties expressed or implied beyond those stated herein. Tarrison Products' liability is limited to the replacement of defective merchandise and Tarrison will not be responsible for any and all ancillary expenses that may arise. No employee or agent of Tarrison Products Ltd. has any authority to make any representation or warranty, which exceeds those stated above.

Effective September 2001. Supersedes any previous warranty statements.

SHELVES

Wire Shelf

Tarrison shelves are of the highest quality. A variety of sizes and finishes allow you to customize your shelving system easily to meet your needs. Shelves include plastic clips.

Posts

Tarrison Posts are clearly numbered and come with adjustable leveling bolts and top post cap. One-inch round steel tubing. Posts are grooved on one-inch increments for easy set-up.

Note: 6", 14" and 34" posts are not numbered.

Threaded Stem Casters

These threaded Polyurethane non-marking stem casters fit easily and securely into Tarrison posts to add mobility to your stationary unit. No need to remove post inserts to add casters. Swivel and Swivel/Brake Casters come in three different sizes: 3", 4" and 5".

Flex Mount Shelving

Tarrison's revolutionary Flex Mount shelving allows you to easily insert, remove or adjust the height of a shelf without having to remove other shelves on the unit. Flex Mount shelving is for intermediate use only. Tarrison standard collar shelving is required for top and bottom shelf. All you do is slide the Flex Mount collar up, move the Tarrison clips anywhere you want on the post, replace the Flex Mount collar and simply insert the shelf. There is no need to order additional special posts, the Flex Mount Shelving System works with standard Tarrison posts. Maximum flexibility to ensure maximum space usage!

Add-on Unit

Increase your storage space by purchasing an Add-on Unit. Each Add-on Unit consists of two posts, four shelves, plastic clips and eight S-hooks, which saves the cost purchasing two additional posts.

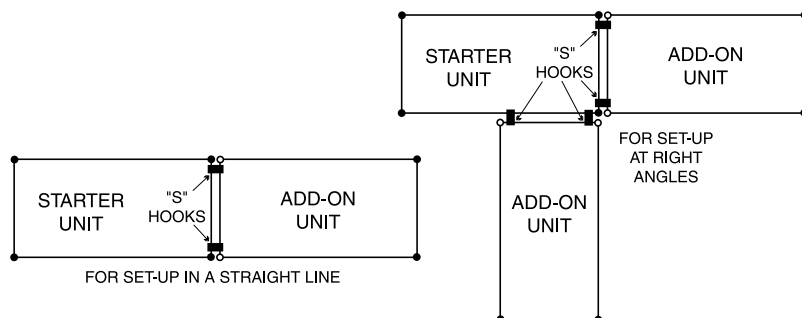

**ALL PRODUCTS
AVAILABLE IN ANY
FINISH OR COLOUR**
May require a minimum quantity ordered

Add-on S-hook

Use Add-on S-hooks instead of posts to grow your shelving unit. Use two for each add-on wire shelf and use three for wide span shelving. Use in corners for "L-shaped" shelving unit, on the side for back-to-back units or on the ends for continuous runs of shelving.

Add-on S-hook
Model No. AD5H

WORK CENTRES

Work Centres

Tarrison has developed the most versatile Work Centres in the business. Designed for Prep and Bakery applications. Tarrison's Work Centres will maximize your working space efficiently and cost-effectively. Customize your own Tarrison Work Centre with the accessories listed on opposite page. So easy and so affordable! All Work Centres are built with Tarrison's high quality wire shelving and posts. Work surface features: 304 series 16 gauge stainless steel with a 4" backsplash; two heavy-duty wide channels; 1.5" bull nose front; knife edge; pre-drilled holes that accept a clamping device on the side for banking units; and radius corner backsplash. The sub structure will have your choice of a 3-sided frame or an under-shelf. Work Centres are 30" deep with available lengths of 36", 42", 48", 54" 60", 72". Select which option is best for you and add accessories on opposite page to further customize your Work Centre.

Keep your spices and other small items organized in Tarrison's Spice Rack. Attach the rack to any shelf, hanger rail or grid for easy accessibility.

Interior dimensions are 3" H x 4" D x 12" L.

Model No. SR

Adjustable Post Bracket System

Post wall mount brackets allow you to use adjustable shelf brackets and the corresponding size shelf to make the perfect adjustable wall system. It's easy. Choose the height of the post kit and order two for each section. Assemble these on your wall, spaced to correspond with the width of the shelves you have chosen. Next, determine the depth of your shelves and order two corresponding adjustable shelf brackets for each shelf. Shelves adjust on 1" increments.

For multiple sections, use three or more post kits with single shelf brackets on the ends, and double shelf brackets on the centre post kit.

You now have the most flexible way of utilizing your wall space.

Universal Pan & Insert Rack

The Universal Pan and Insert Rack is a 36-pan capacity mobile shelving unit, which features three independently adjustable sections. The Rack is fully adjustable for 12" x 20" insert pans and all sizes of pizza and bun pans. Standard with four shelves, four posts, four threaded stem casters, two with brakes, and three sets of tray slides. Each tray slide features 1 1/2" spacing. Height is 81" with casters.

STORAGE & SECURITY

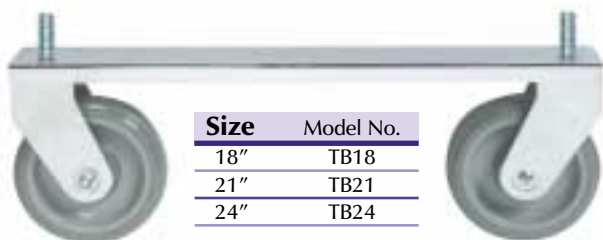

Space-Tite High Density System

Maximize your storage space with minimum floor space. Double your storage space capacity instantly with this economical mobile shelving system. Provides instant access to inventory and allows maximum air and light circulation. Space-Tite is designed to eliminate unnecessary aisles, free-up floor space and increase the number of shelving units that can be used in a designated area. This is done by combining stationary and mobile units, to create or eliminate aisles as needed. The stainless steel overhead track assures smooth shifting of units, eliminates dirt and debris build-up that occurs with floor mounted systems and compensates for uneven floors. Both stationary and mobile units are available with a variety of shelf sizes and finishes. Mobile units have 5" polyurethane rigid casters. Simple installation makes this system practical and easy to use.

Contact your Tarrison Representative for more information.

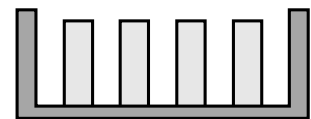

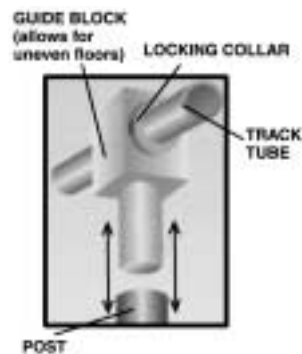

Tie Bar

Rigid stem casters require the use of a tie bar, which connect the casters across the narrow width dimension of the cart. For every two casters ordered, one tie bar must be used to assure rigid caster alignment. Chrome finish. Order rigid casters separately.
